FIRE

Claim Number: 36-29L1-57B

RBZ00015

Reviewed file note of 2/18. Reviewed photos from inspection on 2/18. The photos present granular loss/blistering and weathering. There is no evidence of hail. The close-up photos of the markings depict sharp edges, there are no granules forced into the shingle mat. There is no evidence of fracture or bruising the shingle mat. Some of the markings are linear and not circular in appearance. Spatter is very small on the panel box.

Our position remains that there is no damaging hail to the shingles.

JR, let's f/u with a letter to the PA summarizing our 2nd inspection and our position. Please forward to me the letter once drafted. Thank you.

Category: Investigation

Sub Category:

ACS JR Phillips and Khalid Fouda completed an on site 2nd inspection of the property with PA present. Documented areas the PA believed to be hail to the roof and exterior elevations. Uploaded the photos to the file and sending message to TM to review.

Advised PA that I did not agree that what she marked as hail, was damage. She indicated there does not have to be matting breakage for damage to be present. She stated that hail that knocks granules off the roof, is damaging hail as it effects the life span of the shingle. She acknowledged that SF standards say the matting had to be damaged, and surface bruised, but she does not agree.

Copy of policy requested this morning. Advised I would provide to her as soon as received, and would communicate claim decision once reviewed with management. She understood. Insured was present after we all got off roof, and he indicated he understood as well.

Spoke with the PA. She said she inspected the roof, and found all the markings from the third party inspector. She said his markings show 10+ hps, so isn't sure why we would turn the roof down. I told her their report said no hail. She was pretty sure it was the roof inspector who had marked up the roof.

I went ahead and scheduled the 2nd inspection for 2/18 at 11am so I could have assistance from CR Fouda. She confirmed.

File Note: Review

Participant:

COL / Line (Participant): 35 / 001(Named Insured(s))

Category: Management

Sub Category:

Reviewed. Reviewed photos presented by PA. JR, we need to confirm the shingle is discontinued and has a 5" exposure, not rely on the photo presented. If the shingle is the standard size and no longer available we would only total the slope(s) with wind damage. I did not see any hail date noted in AccuWeather for 12/5/21 although there was hail in the area.

Policy origination date was 11/10/20.

Let's f/u with a 2nd inspection. If you find additional damages, let's review.

FIRE**Claim Number: 36-29L1-57B****RBZ00015**

File reopened with a PA letter from Ally Public Adjusting. Photo report from them shows the shingles on the roof at 5" exposure. 5 wind damaged shingles found to the left slope, so will need to update that slope with replacement due to discontinued shingle. Photos also show what they believe to be hail damage. Sending message to TM to review to confirm if a 2nd inspection is warranted and how to proceed forward.

02-03-2022 - 8:39 AM CST

Closing file note failed to be added to file when claim was initially closed:

Wind/Hail Inspection

INSPECTION RESULTS: 5 wind damaged shingles to the left slope, 3 vent caps, 4 turtle vents, front and left gutters.

Met with (PH, Ctr name, if applicable): Ladder Now inspected with the roofer and insured present

Date/Time: 1/18 noon

Coverage A - Narrative of damages if not documented in roof scope sheet and/or exterior scope sheet(s)

Dwelling: spot repair to left slope with roof metals

Other Structures: none

Interior: none

Labor minimums: reviewed

GCO&P: no complexity, none added

Depreciation: LBD none applied

Coverage B - Personal Property: none

Coverage C - Additional Living Expense (ALE): none

Sub/Salvage: none

TPPOC (TX only): none

Estimate was written for the damages confirmed, but the total was below the policy deductible. No ADPL letter was sent to the insured, and a non-total conversation was completed voice to voice with the insured and agent.
